あなたが改善したい環境問題を1つあげ、それに対して具体的にできることを100語程度の英語で書きなさい。なお、いつ、どこで、何を、どのようにするか4つの項目を内容に入れなさい。

#### 解答例

To save the environment, I want to make less garbage and stop using things not friendly to the environment. These days, many things are made of plastic or metal. We know that they are bad for the environment because they do not go back to soil easily. So, we need to stop using them as much as possible. As a junior high school student, I will bring my own bag when I buy something at the store. This sounds like a small thing. However, by doing this I can stop using plastic bags. If we all do this, we can save the environment.
